Finally at Mata del Herrador Polo Club, depending on the time of the year, we also give you the chance to enlarge your polo experience with some other horse related activities such as:

## **Hare hunting with greyhound**

From October to February in three unique reserves, Hacienda Mata del Herrador, The beautiful Vega de Carmona and the emblematical Monclova Castle ([www.castillodelamonclova.com](http://www.castillodelamonclova.com) )

There you can have a great day, be welcomed with a typical Andalusian breakfast, after which there will be a horse ride to set up a horse wing with other riders which will cross check the couple of greyhounds that will set out on a race behind the hare. In the afternoon the hunting will be interrupted to taste a nice lunch in the inside of the Hacienda, in the middle o the countryside or inside the Castle, some live flamenco may follow

The price per day per person will be depending on which reserve the hunting takes place, this will include the transportation to hunting grounds that same day, the groom to look after your horse and who will have your horse ready for you to ride on and off any time and the meals you will enjoy in the morning and at midday, and the dogs you will be supporting on the race and the person responsible for those dogs.

The appeal of the hare hunting with greyhound will be to live the intensive and speedy moment of the race between two types of animals born to do so. It is all about nature how the way the dog chases the hare by natural instinct at the same time he learns from the hare how to follow her doggy movements for future races....it is really beautiful to watch or follow countering with your horse how the intelligent hare quickly turns one way or another to avoid being caught by the greyhound.

You will definitely live a unique experience and highly recommended as it is the prettiest type of hunting and most environment friendly that you can enjoy...

An experience worth witnessing!!!
